01 Obligations discharged

The 2025 ILIT premium was funded in the correct sequence, and the gift-tax exclusion preserved.

STEP	DUE	COMPLETED	RECORD
Premium invoice received and read	1 Sep	1 Sep	Invoice matched the policy schedule.
Verify amount, capacity and balances	9 Sep	8 Sep	Trust cash sufficient; no transfer needed from the operating account.
Prepare transfer request for the bank	16 Sep	15 Sep	Approved by Dana Whitfield and sent to Northern Trust.
Confirm funds received in trust account	26 Sep	25 Sep	Confirmed by the trustee.
Issue Crummey notices to beneficiaries	28 Sep	26 Sep	Three beneficiaries; all notices issued the same day.
Withdrawal window closed	26 Oct	27 Oct	Thirty days from issue. No withdrawal rights exercised.
Trustee authorises premium payment	3 Nov	3 Nov	Authorised only after the window had closed.
Premium paid and receipt filed	15 Nov	14 Nov	Receipt filed against the policy.
Log payment and queue next cycle	22 Nov	22 Nov	2026 cycle created.

Nine steps, all completed. Four required your adviser's approval before proceeding; three produced correspondence sent on your behalf. The order matters: the trustee was not asked to authorise payment until the thirty-day withdrawal window had closed.

02 Exposures raised, and what happened to them

Four exposures were identified during the period. Two are closed; two remain open and are listed in section 04.

RAISED	WHAT WAS NOTICED	NOTICED BY	OUTCOME
14 May	Star Island flood declarations expired	Adviser	Closed 21 May — current declarations obtained from the carrier and filed against the property. Cover had been continuous.
15 Jul	Dynasty trust distribution approaching without trustee instruction	Adviser	Open — Q3 distribution due 19 August, no written instruction on file.
27 Jul	Capital call notice unread for seven days	Platform	Closed 28 Jul — cycle restarted and the transfer request drafted ahead of the 2 August due date.
28 Jul	1967 Ferrari 275 GTB carries no insurance	Platform	Open, urgent — listed in valuables at \$3,100,000 with no policy on file. Raised while answering an unrelated question.

03 The numbers behind your reporting

Every balance in your reporting carries the date it was true and the statement it came from.

WHAT THIS REPORT COVERS

This report covers work recorded in the platform between 1 August 2025 and 31 July 2026. Each item is drawn from a dated record — an approval, a sent message, a filed statement or a logged exception. Meetings, calls and correspondence handled outside the platform are not included, so this is an account of recorded work rather than of the whole relationship.
